WAR IS EXPECTED TO BEGIN TO-DAY

Continued from Page One.

protest against the Italian intimation that the Arabs of Tripoli are in favor of Italian rule. Loyalty to the Sultan was expressed.

In a note to the provincial authorities to-day the minister of the interior assured these officials that the government was resolved to defend the national honor. The minister ordered the authorities to suppress all attempts at a boycott of Italian products, inasmuch as there had been no actual rupture between Turkey and Italy.

Blockade Is Complete.
Paris, Sept. 28.—At midnight the blockade of Tripoli by Italian ships of war was reported to be complete. Five battle ships are within sight of the city. A line of torpedo boats lies between the heavier ships and the shore, ready to give chase to any Turkish vessel attempting to land troops or arms.

'Yield or Fight.'
Rome, Sept. 28.—With a squadron of battle ships lying within twenty miles of the African coast, Italy has served formal notice upon Turkey that she has determined positively upon the military occupation of the ports of Tripoli and Cyrene.

Demand is made that the Ottoman representatives in Tripoli and Cyrene shall not resist such occupation. If they do resist, Italy will proceed to take the ports by force of arms.

Turkey is allowed twenty-four hours to arrive at a decision and to make reply. If Turkey does not consent to the immediate occupation, or fails to make reply within the stipulated time, hostilities will open without further delay.

The ultimatum submitted by Italy to Turkey, says in part:

"The Italian government, having the intention heretofore to protect its interests and its dignity, has decided to proceed to the military occupation of Tripoli and Cyrene."

"This solution is the only one that will give Italy power to itself decide and itself attend to that which the imperial government does not do."

The royal government demands that the imperial Ottoman representatives shall not oppose the measures which will in consequence be necessary to effect this solution without difficulty. An ultimate agreement will be required between the two governments to regulate the definite situation which will arise.

The royal embassy at Constantinople is ordered to demand a decisive response on this subject from the Ottoman government within twenty-four hours of the presentation to the porte of the present document, in default of which the Italian government will consider itself as being obliged to proceed immediately with measures destined to assure the possession of the ports within the period of twenty-four hours shall be communicated also through the Turkish Embassy at Rome."

Italy in Readiness.
The developments of the past few days demonstrate that Italy is in a complete state of preparedness for war. The military expedition for the occupation of Tripoli was ready three days ago to follow the fleet. It is anticipated that should Turkey refuse to evacuate the ports, the fleet will be followed by an additional force of 12,000 or 15,000 men.

The Duke of the Abruzzi is in command of the flotilla of torpedo boats in the vicinity of Tarnate. He is in constant communication by wireless with a fleet of scout boats patrolling the coast between Malta and Tripoli.

Fear is expressed here that with the opening of hostilities the Turkish authorities in Tripoli will not be able to control the fanatical tribesmen from the interior, and that a massacre of all Italians and possibly other foreigners will occur.

INVESTORS MAY LOSE AN ISLAND

A party of American investors, including Herbert J. Browne, of this city, have lost their charters to property on Cayo Avalos Island, belonging to Cuba, according to a special letter sent to this city yesterday. According to the letter, the charter, relating to the selling of valuable guano deposits, has been annulled by the government of Cuba.

Mr. Browne, when upon last night, declared himself absolutely ignorant of the fact that the Cuban government had been dispatched as an absolute falsehood, saying that had such steps been taken he would have been immediately notified.

It would have been impossible for the government to annul our charter," he added, "without giving us some preliminary warning of their intention. The fact that the Cuban Legation here has not been informed of the action is almost absolutely complete proof that the report sent out is a pure fabrication."

Mr. Browne will visit the Cuban Minister to-day in an effort to get further details of the alleged annulment.

Cayo Avalos Island, originally known as "Varty Island," is one of the group belonging to the Isle of Pines archipelago. It lies in the Caribbean Sea, and was discovered and formally taken possession of by William A. Varty and Lewis Davidson in 1902.

Varty later succeeded in interesting Browne and a party of friends in the enterprise. Rich iron and manganese mines were discovered and an immense deposit of bird guano.

Browne has been at work several years developing the island and exploiting the mines.

WASHINGTON EXTENDS A ROYAL WELCOME TO THE LARGEST TAILORING ESTABLISHMENT IN THE U. S.

M. STEIN AND COMPANY HAVE A BUSY WEEK.

The Popular Tailors Now Occupy the Largest Portion of the Entire Building at Eighth and F Streets, Embracing Six Store Fronts.

The Enterprise of Washington Business Man Warmly Commended by Other Business Men.

OPENING OF NEWLY ENLARGED ESTABLISHMENT ATTENDED BY CROWDS.

Mr. Stein Recipient of Congratulations from Throngs of Visitors and Deluged with Orders for New Fall Suits.

Washington is proud of possessing the largest tailoring establishment in the United States, and hundreds of Washingtonians said so in person to Mr. Stein, the proprietor of this great tailoring emporium, at the opening this week. Mr. Stein was heartily congratulated on his success and enterprise

and deluged with orders for new fall suits. Many had never before seen such an array of fabrics or such an immense establishment devoted entirely to tailoring.

Rapid Growth of M. Stein & Co.'s Business.

"Why, it was only a few years ago," remarked a prominent out-of-town business man, "that I had occasion to visit a tailoring establishment—a small, single store on F street. The other day I happened to be going by there, and found, to my amazement, that the same tailor had grown so big that he had taken in six stores—in fact, the largest portion of the whole building at 8th and F streets. The proprietor, Mr. M. Stein, gave me a very hearty welcome, and showed me through what I believe is the largest

M. STEIN & CO.—THE LARGEST TAILORING ESTABLISHMENT IN THE UNITED STATES.

est and best-equipped tailoring establishment in the United States.

"The idea that Washington should boast of such a colossal tailoring business—larger than any, even in New York or Chicago—certainly commands my admiration; and the part that makes us old business men wonder is the fact that Mr. Stein is still a young man—still in his thirties—and any business man would be glad to have attained Mr. Stein's success after he had passed the half-century mark."

Gives Employment to Large Force of Washington People.

These words of commendation, coming, as they do, from an outsider, are all the more gratifying to those who are patriotic and ambitious to help along the Greater Washington movement.

Such an establishment as that of M. Stein & Co., which gives employment to a large force of Wash-

ington people and does all of its work on the premises, is certainly worthy of the generous patronage accorded it by the well-dressed men of the National Capital.

Thousands of Dollars' Worth of Fine Woollens.

In the coming fall season Mr. Stein has prepared to extend his tailoring business by putting on the very best corps of designers and cutters to be obtained in this country. He has imported thousands of dollars' worth of the finest English, Scotch, and Canadian woollens, besides giving liberal patronage to the best American mills, and he will show in his establishment the greatest variety of fabrics, in all the fashionable patterns, ever displayed in the United States.

Extremely Reasonable Prices.

The enormous volume of business transacted enables Mr. Stein to offer the finest fall suitings in

the world at extremely reasonable prices, ranging from \$14.75 to \$40—and always with the guarantee of absolute satisfaction in fit, style, and quality, or money refunded.

The policy of this establishment is to let its fabrics and its reputation for good tailoring work speak for themselves. No one is importuned to buy. But every courtesy will be extended you by the very polite corps of salesmen, whether you buy or not.

Samples Cheerfully Given.

If you see any fabrics that please your fancy, ask for samples of them—take them out and compare them with the best values you are offered elsewhere. You are sure to come back to Stein's for the suit, for no tailor in this city or elsewhere can offer you the qualities he does for so little money.

Stein's Style Book, samples, and self-measurement blanks will be mailed upon request to any address in the country.
